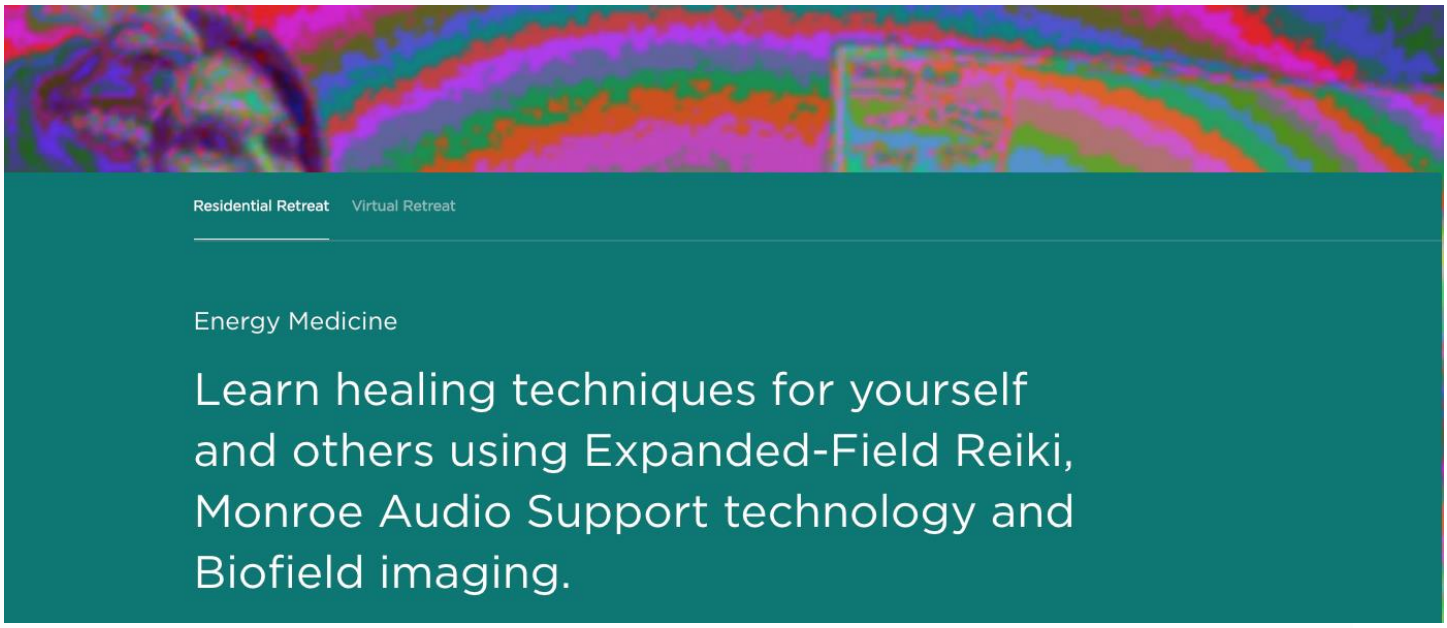
2023 Website Program Description



Residential Retreat
Virtual Retreat
Energy Medicine
Learn healing techniques for yourself and others using Expanded-Field Reiki, Monroe Audio Support technology and Biofield imaging.

Residential Program

$2,295.00

5 Days + 6 Nights

Whether you simply want to alleviate your own pain or you're a Reiki seasoned healer with years of practice (Reiki Masters often attend our courses), you'll be amazed how literally seeing what you're doing increases your ability to sense and direct healing energy to where it is needed most.

Turbocharge your healing abilities. Learn to use Reiki I, II and Reiki Master, crystal therapy and chakra clearing techniques, as well as a combination of Hemi-Sync and SAM exercises when you join Brian Dailey and Allyn Evans for their Energy Medicine retreat

Physically see and sense what you're healing. Energy sensing exercises and biofield imaging. We use special video equipment to show you real-time, color imaging that enables you to physically see healthy and unhealthy energy patterns and the direct effects of different healing treatments. But we don't stop with visual imaging. We also introduce you to so you learn how they influence and interact with living biofields as well. (The option to use only Hemi-Sync sound technology for exercises is available.)

Quickly improve your ability to sense energy fields. Everyone has an innate ability to heal themselves and others, but for most people, it remains limited and unrealized. This course

is specially designed using a combination of subtle energy training and advanced sound and imaging technologies, allowing you to expand your energy field enormously at will. Readily access guidance from higher sources and expand and amplify/intensify your energy field.

What happens when you put the world's biggest crystal on an energy vortex? Magic.

(See the link in the details section below.)

What You Get

In addition to the program materials and audio exercises, you will receive the following benefits.

Semi-Private Rooms

Standard accommodations are double-occupancy rooms.

Free Wi-Fi

Free Wi-Fi is available for guests
